## REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Applicants' arguments regarding the final rejection have been persuasive. The newly cited Japanese Patent Publications (2000-238957, 2003-103994, 09-002724) each show transfer tape dispensers wherein the rigid applicator tip has a pivot axis parallel to an application edge of the applicator tip and is pivotable between a rest position and at least an application position. None of the newly cited references, however, shows a cushion body in the case and adapted to bias the applicator tip toward the rest position from the application position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
